

Here are some comments from parents:

“Sacred Heart School is dedicated to developing responsible, Christian leaders one day at a time.”

“My children think it’s cool that they read about a subject in their book and then their teacher pulls up the latest information on the Internet and projects it to the interactive board. I like knowing that my kids are learning and using technology for success in the 21st century...”

“Physical fitness is an important concern for our family. Sacred Heart has been a State Champion School for several years---even before we had a gym! With our new state-of-the-art gymnasium, our physical fitness program just keeps getting better and better.”

“Our son’s teacher does an excellent job assisting in the facilitation of our child’s learning style, thus maximizing his potential.”

“The Sacred Heart community has met all our children’s educational needs with a sense of purpose and spirit that we cannot duplicate anywhere else. The environment encourages a cooperative spirit between parent and educator that makes us feel like we are one big family. We would not dream of ever changing this experience.”

“I love knowing that every day when I send my daughter to school, she is enveloped in a nurturing, caring, Christian environment, where she can speak freely about God and her Catholic faith.”
